

Global IP Estimator® - Portfolio

DATA SHEET

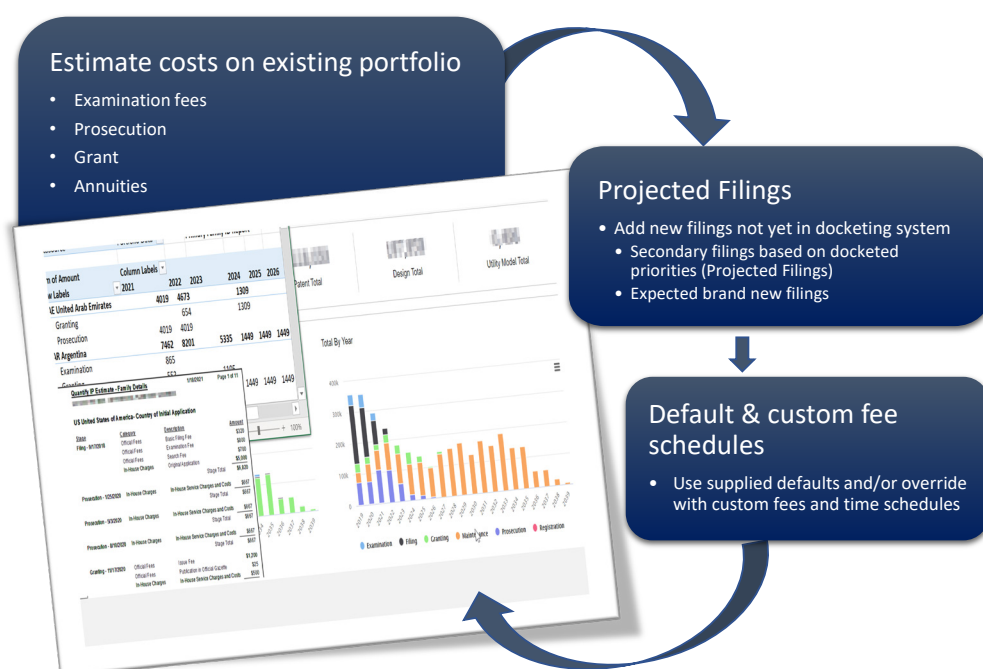

A powerful, state-of-the-art solution at your fingertips, Global IP Estimator - Portfolio accurately predicts and analyzes the global IP costs of an entire patent and trademark portfolio.

Take the guesswork out of future patent and trademark costs and start focusing on your future success.

Our robust, global IP database meticulously maintained by our staff of experts, coupled with our innovative software and your docketing data, allows you to confidently achieve accurate and immediate future-cost estimates for the life of your IP portfolio.

Accurately predict and analyze current and future worldwide costs for prosecuting and maintaining a patent and trademark portfolio by importing your docketing data with this unique, robust tool.

Reliable Portfolio Projections

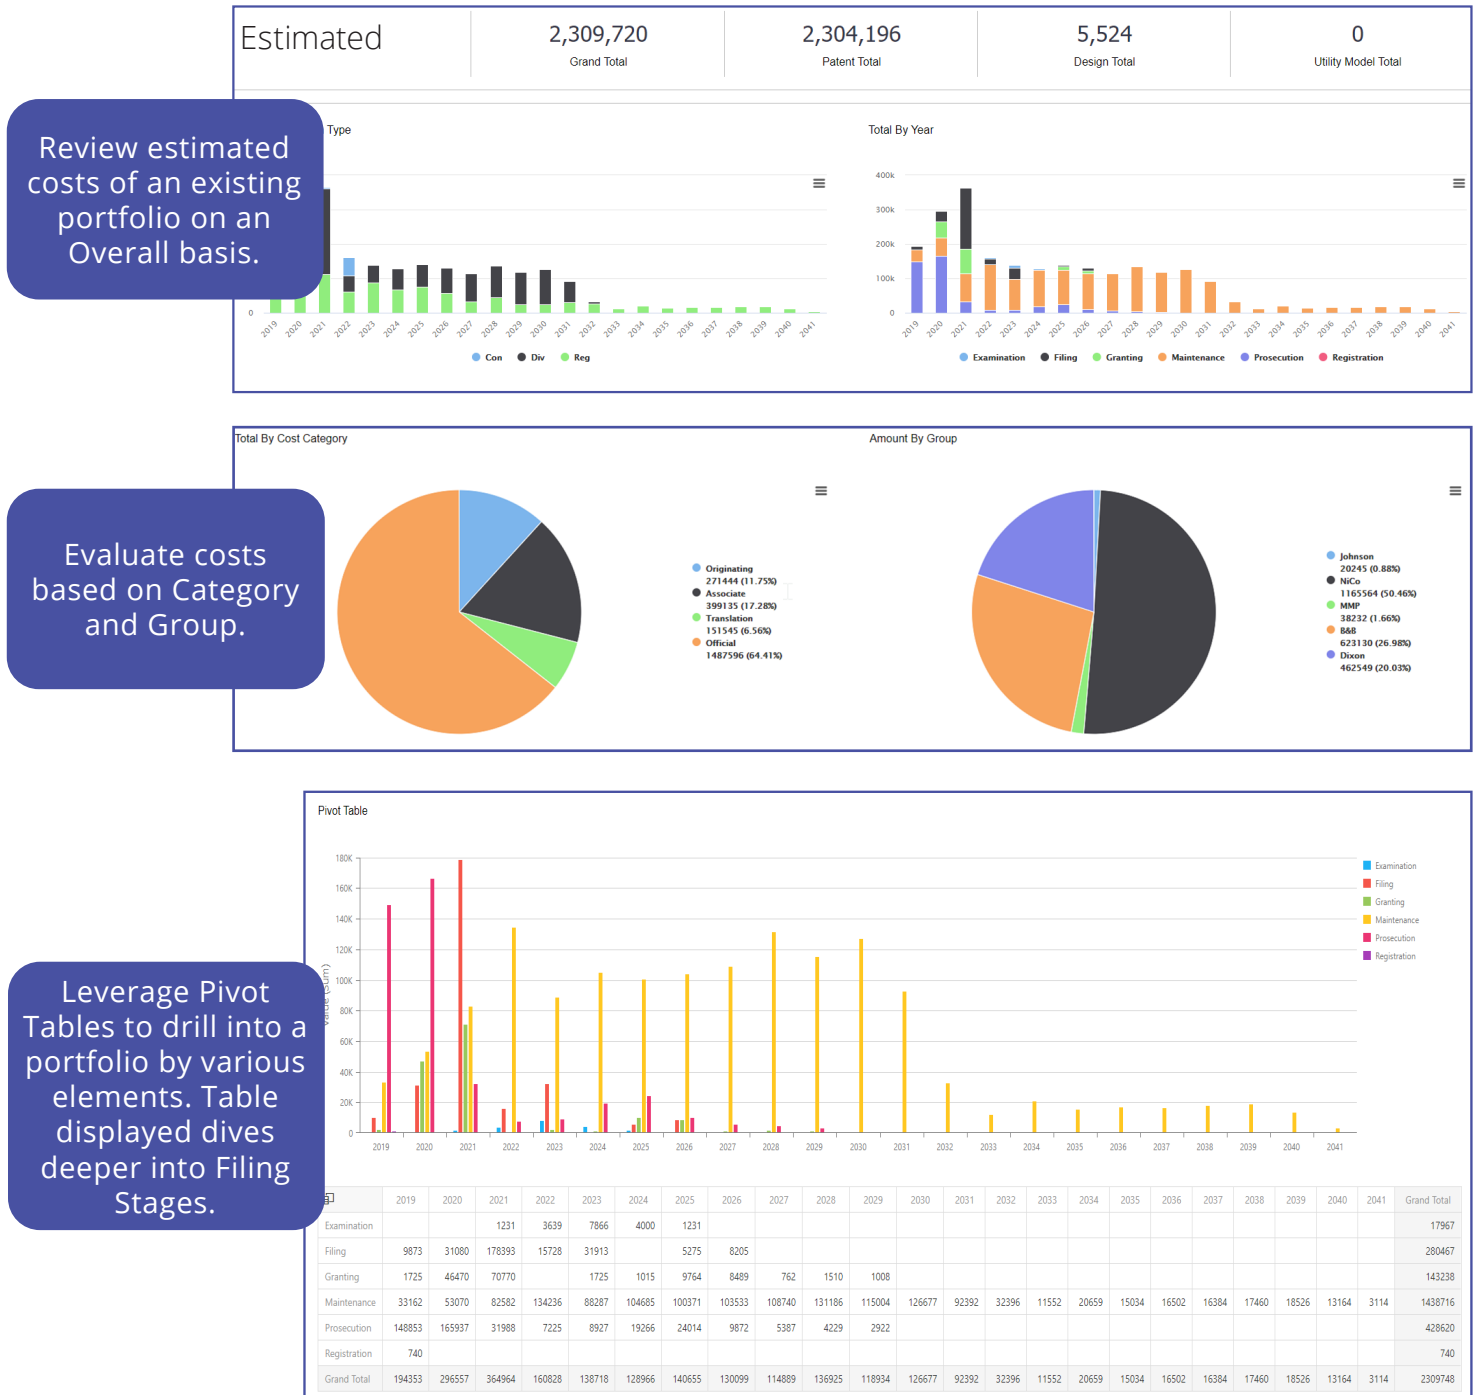

WHETHER AN IP PORTFOLIO INCLUDES HUNDREDS OF PATENT AND TRADEMARK FAMILIES OR ONLY A FEW, GLOBAL IP ESTIMATOR - PORTFOLIO HELPS YOU:

- Reduce costs
- Save time
- Leverage customizable reports
- Make better foreign filing decisions by analyzing the costs of possible future filing strategies
- Improve efficiency and productivity
- Strategize with “what if” analyses for secondary filings and pruning decisions

Dashboards provide an overview of a patent and/or trademark portfolio through a variety of lenses. Get a snapshot of an Overall portfolio and by Category, Stage and Family.

Take the guesswork out of estimating - know where you stand by Country and Year.
